

**Energy CharacterTerm / Use and Its Abbreviation**

**Energy Pattern or "Signature"**

<b>Energy CharacterTerm / Use and Its Abbreviation</b>	<b>Energy Pattern or "Signature"</b>
<input type="checkbox"/> <b>Most Harmful</b> Meandering Noxious Line (MNL).....	7 curving, vertical planes, around 2 feet wide, infrequent
<input type="checkbox"/> . Straight Noxious Pathway (SNP).....	100's of straight, parallel, vertical planes, roughly 6 inches apart, over 100 ft. wide
<input type="checkbox"/> . Straight Subtle Line (SSL).....	7 very straight, parallel, vertical planes, about 6 inches apart, 3 feet wide
<input type="checkbox"/> . Noxious Ray Site (NR).....	Nearly vertical cylinder, varying diameter, originates from a side line of SNP above
<input type="checkbox"/> . Noxious Ray Spiral Line (NRS).....	23-plane spiral, roughly 2 feet wide, connects the above two, can go CW or CCW
<input type="checkbox"/> . Straight Wide Etheric Line (SWE).....	17 parallel, vertical planes at roughly 4-inch spacing, very straight, around 6 feet wide
<input type="checkbox"/> . Cavity Vortex (CV).....	Tapered tube, CW rotation, downward flow. Forms "sinkholes", creates Dry Etheric lines
<input type="checkbox"/> . 4-Petal Tube (4PT).....	4 to 6-foot wide "flower-like" pattern with a central vertical tube and 4 double spirals
<input type="checkbox"/> . Negative Bull's-Eye Pattern (NBP).....	4 sets of concentric, 5-plane, vertical tubes, forming a 10-35 foot "target" pattern
<input type="checkbox"/> . Triple Vortex Spiral (TVS).....	Single, vertical-plane spirals moving CCW from Triple Vortex vortices
<input type="checkbox"/> . Wet Etheric Line (WE)*.....	Day: 23 vertical planes, 2 ft. wide, energy/water cross-flow; night: 3 sets of 3 planes
<input type="checkbox"/> . Negative 4-spiral Bull's-Eye (N4B).....	Five concentric, vertical tubes with four CW and CCW spiral planes moving toward it
<input type="checkbox"/> . Triple Vortex (TV).....	Complex of 3 CCW vortices connected by spirals to 3 four-plane, beneficial, vertical tubes
<input type="checkbox"/> . Primary Curry Line Crossing (PCC).....	Day: 3 x 3 plane cross (night: single planes), forms 5 vertical or horizontal concentric tubes
<input type="checkbox"/> . Broad Single Line (BSL).....	6 inch thick vertical plane, runs straight, then reverses direction in a "zig-zag"
<input type="checkbox"/> . Dry Etheric Line (DE).....	3 sets of 3 vertical planes, 2 feet wide, all moving radially toward a Cavity Vortex
<input type="checkbox"/> . Stray Voltage Pathway** (SV).....	Single vertical plane above line-frequency EMF running through ground, usually straight
<input type="checkbox"/> . Astral Line (AL).....	7 parallel, straight, unidirectional planes, affecting only the astral energy layers
<input type="checkbox"/> . Eight-Petal Tube (8PT).....	20 foot wide "flower-like" pattern with central tube surrounded by 8 double-spirals
<input type="checkbox"/> . Spiral Tube Complex (STC).....	Four 3-ft. tubes with CW & CCW spirals surrounding 4 concentric tubes of 6-ft. diameter
<input type="checkbox"/> . Negative Mental Line (NML).....	5 parallel, vertical planes, 1 foot wide, meandering
<input type="checkbox"/> . Wide Meandering Etheric Line (WME)...	23 parallel, vertical planes, 12 feet wide, curving
<input type="checkbox"/> <b>Increasing Harm</b> Aquastraight Line (AST) at night.....	23 straight, vertical planes, 20 ft. wide; run between Aquastats, outer planes are worst
<input type="checkbox"/> . Primary Hartmann Crossing (PHC).....	40 x 40 intersection of vertical/horizontal planes, forms 5 concentric tubes
<input type="checkbox"/> . 2ndary Hartmann/Curry Cross (SH/CC).	1,3 or 5 x 1,3 or 5-line crossing of vertical/horizontal planes, forms 4 or 5 concentric tubes
<input type="checkbox"/> . Feline Etheric Line (FE).....	5 straight, parallel, vertical planes, evenly-spaced, 24 inches wide (only affects cats)
<input type="checkbox"/> . Weak Etheric Line (WEL).....	21 straight, parallel, vertical planes, evenly-spaced, 13 feet wide
<input type="checkbox"/> . Weak Astral Line (WAL).....	4 straight, parallel, vertical planes, evenly-spaced, 20 inches wide
<input type="checkbox"/> <b>Least Harmful</b> Magnetic Anomaly (MA).....	2 sets of 2 parallel, vertical planes of AC EMF surrounding 1 vertical DC plane

\* Also known as a black vein, water vein, *Lung Mai* (veins of the dragon) with *Sha Qi* (unhealthy energy), or earthray. Originates in a Blind Spring.

\*\* More accurately a "returning neutral ground current". Power company lawyers say that "stray voltage" legally only affects animals!
